Stratos

The Stratos line of optical connectivity products, designed and manufactured by Cinch Connectivity Solutions, is globally recognized as highly reliable, cost-effective, and provides optical connectivity solutions that are virtually immune to dust, mud, oil, water, and other contaminants.

Our expanded beam connectivity products are ideal for harsh environment applications in the broadcast, industrial, petrochemical and military/aerospace markets where high reliability, low maintenance and quick serviceability are critical requirements.

The Stratos line is committed to product innovation, product quality and world-class customer service.

Features

- Contact based technologies to suit various connector form factors
- provides superior performance in harsh environments
- Full range of Stratos expanded beam connectors
- Supports multimode or singlemode cable
- 2 to 12 optical channels
- Fiber optic / copper hybrid assemblies
- Custom lengths; high quality military tactical cable
- Wide range of deployable cable reels
